

Mentor Visit #3

01/08/18

* case study needs to be more easy-to-understand

• we intro.

• talk about something interesting

• don't define/explain disease name

• we discussion.

• explain the disease

1) why

2) how

3) how to diagnose

4) treatment

5) long term effects

can also talk about ... • vaccine dangers / stimuli
• molecular memory theory

↓
▷ get into the immunology

↳ but remain from getting too complete

* recently.. ALLUHA... TRAVU FREDERIC (LOWRUS)
diagnosed w/ CTBS

can we this in the intro to

attract attention of reader.. esp interesting

o/c at stake

reaction same

A college... medical school

· long journey

· take financials but most of ALL
the dream into CONSIDERATION

* learning... fun/interesting concept

· can make final product decided towards

· 1 year old = the most intelligent

· the ratio of info received vs processed/learned

↳ v. high

· same reason why languages are
learned easily when younger vs. when
older...
